New York 20, New York

Attention Mr. G. E. Brewer

Gentlemen:

Further to our letter of October 27, 1954, we are forwarding herewith additional title reports on subject lands designated "J" and "K".

Report "J" covers that portion of the land labeled Department of Water and Power, referred to in our letter of October 27, on which we did not have a title report at that time.

Report "K" covers the lands formerly occupied by streets and on which lands we previously did not have a title report. Report "K" also covers the East 25 feet of Lot 68 on which we previously did not have a title report, although our letter of October 27 did not specifically mention that fact. The map which we forwarded, however, was marked to indicate this.

Yours very truly,

Original Signed by
W. D. FULLER
